January 10 Chapter Meeting

Unleash Your Inner Data Nerd

Join us at the January AFP meeting when we discuss the good, the bad, and the ugly of donor database systems. When groups of fundraisers get together, oftentimes they’ll quickly launch into a spirited conversation about the successes and failures of the system that they use in their shop. We will be having a large round table group discussion on this hot topic over pizza and salad on January 10th. Questions will be posed to the group, but please feel free to bring additional questions. Whether you are using the most high-tech expensive system on the market or you have an excel spreadsheet as your database, all fundraisers need to know how to make their data work for them. Are we pulling the best information to help us be successful in our roles? Do we know our attrition rate? Are LYBUNTS and SYBUNTS a thing of the past, or do we still use them faithfully? All this and more!
